## EXPERIENCE

### Frontend Developer Trainee - Project Based Training

Coding Samurai | April 2026 – May 2026

- Developed multiple frontend projects: Weather App, Simon Game, To-Do Application, and Responsive Landing Page.
- Built responsive, user-friendly interfaces using HTML5, CSS3, and JavaScript.
- Implemented DOM manipulation, REST API integration, and dynamic UI updates.

## PROJECTS

### Weather App

Fetches real-time weather data via API; users can search cities for temperature, humidity, and conditions.

**Tech:** HTML | CSS | JavaScript | API

### Simon Game

Interactive game with dynamic color sequences, user input validation, and increasing difficulty levels.

**Tech:** HTML | CSS | JavaScript

### Responsive Landing Page

Modern landing page with smooth navigation, animations, and seamless cross-device experience.

**Tech:** HTML | CSS | JavaScript

### To-Do Application

Dynamic task manager with creation, deletion, completion tracking, and real-time DOM updates.

**Tech:** HTML | CSS | JavaScript
